

National Center on Intensive Intervention Faculty Professional Learning Series

NCII is partnering with faculty at institutions of higher education (IHEs) to explore innovative ways to integrate intensive intervention content within coursework and field experiences for preservice educators.

Opportunity for Faculty to:

1. Learn from colleagues and NCII experts about available tools and resources to enhance preservice coursework and field experiences.
2. Share successes, challenges, and lessons learned from program development with faculty colleagues.
3. Support NCII in the development of a resource demonstrating how IHEs are using NCII tools and resources within their programs to prepare preservice educators.

IHEs participating in the professional learning series will receive the following supports and resources:

1. Participation in quarterly 1-hour virtual professional learning series webinars featuring interactive discussion with colleagues.
2. Engagement as desired in a virtual community space to share resources with colleagues.

Time Commitment and Registration:

Click on the following links to register for some or all of the 1-hour webinars in the series:

- Webinar #1: **June 30, 2020** from 3:00-4:00pm ET: [Preparing Teachers to Deliver Intervention in Virtual Settings](#)
